Christian Education Ministry

The Christian educational mission of the church is to teach the theological underpinnings of a faith that made real the hope of the Christian gospel for all people. Christian Education is essential to the Spiritual growth and the development of the members of our congregation. We are charged with the awesome responsibility of explaining the blueprint that Christ has provided for us to those new to the faith and to those continuing, as we are, on the path of a life built with Christ as its foundation.

"Him we proclaim, warning everyone and teaching everyone with all wisdom, that we may present everyone mature in Christ". (Col, 1:28, ESV)

Responsibilities also include:

1. Developing a comprehensive, coordinated, and unified Christian education program that is consistent with the Pastor's vision.
2. Discovering, enlisting, training and recommending all church education workers.
3. Surveying the educational possibilities for the entire church.
4. Recommending courses, techniques and educational materials for the Church.
5. Selecting and recommending teachers and officers; i.e. Superintendent/Assistant superintendent for all educational support in the church family.
6. Maintaining interest, oversight and general supervision of the following:
 - a. Sunday School
 - b. Vacation Bible School
 - c. Adult & Youth Bible Classes
 - d. Adult & Youth New Member(s) Orientation Classes
 - e. New Teachers Training Class
 - f. Specific/Target Classes for MCBC
7. Assist in compiling a budget for each of the above ministries.
8. Oversee the equipment needs for all the ministries with a goal of providing all the necessary equipment needed for educational purposes.
9. Promote & publicize both inside and outside the church all educational occasions.

Policy Statement – Planning Classes, Workshops or other Christian Education focused events

1. **All ministries, auxiliaries, or support groups** that have a desire to sponsor a class, workshop or other Christian Education focused events, must first engage and work with the Christian Education Director during the “idea stage” for the desired class or workshop. This engagement must occur before a facilitator/teacher is contacted or before any printed material is purchased.
2. Once the specific class or workshop is finalized, the Christian Education Director will present the concept to the senior Pastor for approval.
3. When a decision is received, the Christian Education Director will notify the requesting ministry of the decision and planning for the event may proceed.
